

# NORDIC GRADE

## COOL TECH REFRESHED

**RAPID DEPLOYMENT**

**'PLUG & PLAY' SETUP**

**CLASS 1 ASHRAE VIA  
HUMIDIFICATION LOOP**

**OPERATES AT -40C**

**REMOTE SUPPORT &  
COMMISSIONING**

**SIMPLE, SAFE,  
EFFICIENT**

Recently the Nordics have become an increasingly popular location for building large data centres. The key advantages of the region include the cooler climate, renewable power and industry leading connectivity.

The CloudCooler® Nordic Grade has been specially designed to operate at temperatures as low as -40C while a humidification loop provides 100% ASHRAE compliance in cold air, low humidity climates.

Our modular units combine ventilation, evaporative cooling and humidification to provide operators with simple cooling solutions that are easy to install, maintain and operate. They are an all-in-one Plug & Play solution ready for rapid deployment.

**OVER 500 INSTALLATIONS WORLDWIDE INCLUDING HYDR066**
